**Mayor Riley Rogers Announces One Case of Coronavirus Disease  
(COVID-19) in the Village of Dolton**

**The Village of Dolton-** Today Mayor Riley Rogers announced that the Village has just become aware of one case of Coronavirus Disease (COVID-19) in the Village.

The individual is an African American male over 60 years of age. He was hospitalized for two days after experiencing symptoms and tested positive for Coronavirus Disease Tuesday March 17, 2020. **The individual was released from the hospital and is self-quarantined at home for the next 15 days as advised by medical professionals.** It does not appear that there were any contacts between this person and any Dolton employees.

**Out of respect for personal privacy, no further information will be shared about the individual.**

Mayor Rogers and Administration are adhering to federal and state guidelines regarding Coronavirus Disease prevention and encourage all residents to follow recommendations outlined by the Center for Disease Control.
